

2008 Consumer Confidence Report

11401401 CLYMAN WATERWORKS

Water System Information

We're pleased to present to you the Annual Quality Water Report for 2008. This report is designed to inform you about the quality water and services we deliver to you every day. Our constant goal is to provide you with a safe and dependable supply of drinking water. We want you to understand the efforts we make to continually improve the water treatment process and protect our water resources. We are committed to the quality of your water and are able to report that our drinking water is safe and meets Federal and State requirements

If you have questions about this report or concerning your water utility, please contact Tim Dornfeld at 920-696-3413. If you want to learn more, please attend any of our regularly scheduled meetings. They are held in the Village Hall, 713 Morgan Street, on the fourth Monday of each month at 6:30 p.m.

Health Information

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's safe drinking water hotline (800-426-4791).

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune systems disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by cryptosporidium and other microbial contaminants are available from the Environmental Protection Agency's safe drinking water hotline (800-426-4791).

Source(s) of Water

Source id	Source	Depth (in feet)	Status
2	Groundwater	733	Active
3	Groundwater	623	Active
4	Groundwater	653	Active
